RECYCLING

Wet amidst the heatwave!

Previous week several tanker sales were being reported highlighting the pressure that the freight market in this sector is currently experiencing.

The majority of vessels have been sold into India at realistic levels, although there are some rumours that the duty increases recently seen in the Bangladesh budget may be postponed for two years and perhaps therefore, Buyers may be jumping ahead of the market with this current speculation in the hope the news is confirmed 'post-Ramadan/Eid'.

The hope is that once these holidays are completed, the local recycler's appetite to acquire tonnage may have some renewed vigour from both Pakistan and Bangladesh and aide some improvement in the rates that had previously declined. The reality is that the lack of tonnage in the market over recent months must eventually have some positive affect in relation to price indications from the Buyers as the supply/demand formula comes into effect.
