One order to report in the passenger space, with Sunstone declaring an option for the 6th in a series of 7,400GT / 200 berth cruise vessels at China Merchants, with delivery of the latest addition due in the second half of 2021.

## RECYCLING

### Easter Egg Hunt!

With the upcoming Easter holidays commencing from this weekend, most Brokers and Owners seem to have already lined up their time off as the limited number of vessels being circulated was quite evident providing a quiet feeling in the market. It can only be likened to an Easter egg hunt where everyone is trying to find any activity that is of any significant note before the holiday period descends upon us.

This does seem to be a concern as the Holy month of Ramadan coupled with the oncoming Monsoon season gives a bleak outlook on sales activity. There are still some potential discussions circulating in the market place but it would appear these are now for tonnage not actually workable as brokers vie for positions for future commitments or Owners seeking 'yesterdays' prices and have unrealistic levels in their minds despite, what many feels, are historically high prices.

The positive news whispered from Pakistan in recent weeks doesn't seem to have fully developed as many expected it to. There was a feeling we would start to see some strong enquiry from the recyclers locally which may have established them as serious rivals to their Indian counterparts once again, however the Ramadan holidays may stem this for the time being.
