## NEW BUILDING

A relatively quiet week in terms of new orders, with various holidays ongoing. It's understood that clients of Golden Energy have now finalized an order for two firm plus two option 50,000dwt MRs at STX, for delivery from end 2020.

In the RoPax market, Corsica Linea announced an order at Visentini for a single 650 pax / 2560lm ferry for delivery in 2022. The vessel is LNG capable with circa 206m LOA.

## RECYCLING

### Dispirited!

The mood in the market slipped further this week as the depressive state continued with domestic price levels in the Indian sub. Continent showing no signs of a reversal.

There appears to be a total lack of confidence from the actual recyclers with the appetite from India remaining relatively damp, and Bangladesh showing no willingness to offer for tonnage whilst their yards remain full of previously acquired tonnage due to the severe monsoon rains hampering any cutting process.

With the freight markets across all the major shipping sectors trading at relatively healthy levels during these summer months, the result is that the lack of tonnage currently being witnessed in the recycling market looks set to continue which is a fortunate scenario. If we had seen a vast supply of tonnage hitting the market for sale, then surely we would have seen levels dropping to catastrophic numbers. Let's hope that a change in sentiment on the waterfront arrives before we see a sudden surge of tonnage availability.
